

CLAIM AMENDMENTS:

Claim 1. (currently amended) In combination with a concrete substrate, a layered composite waterproofing membrane comprising a layer of rubberized asphalt having first and second sides with a flexible layer of durable plastic film continuously bonded to the first side and a layer of geotextile having opposed first and second faces with said first face continuously bonded to the second side of said rubberized asphalt and said second face bonded directly to a the concrete substrate.

Claim 2. (currently amended) The combination defined in ~~membrane of~~ claim 1 wherein the rubberized asphalt is rubber-modified bitumen.

Claim 3. (currently amended) The combination defined in ~~membrane of~~ claim 1 wherein the rubberized asphalt comprises from about 5 to about 20 weight percent rubber.

Claim 4. (currently amended) The combination defined in ~~membrane of~~ claim 1 wherein the rubberized asphalt comprises from about 10 to about 15 weight percent rubber.

Claim 5. (currently amended) The combination defined in ~~membrane of~~ claim 1 wherein the rubberized asphalt is modified with a block copolymer.

Claim 6. (currently amended) The combination defined in ~~membrane of~~ claim 5 wherein the block copolymer is a styrene-butadiene-styrene block copolymer.

Claim 7. (currently amended) The combination defined in ~~membrane of~~ claim 5 wherein the block copolymer is a styrene-isoprene-styrene block copolymer.

Claim 8. (currently amended) The combination defined in ~~membrane of~~ claim 1 wherein the plastic film layer has a thickness ranging from about 1 mil up to a thickness where the layer ceases to be flexible.

Claim 9. (currently amended) The combination defined in ~~membrane of~~ claim 8 wherein the plastic film is cross-laminated to resist punctures.

Claim 10. (currently amended) The combination defined in ~~membrane of~~ claim 8 wherein the plastic film layer has a thickness ranging from about 10 to about 25 mils.

Claim 11. (currently amended) The combination defined in ~~membrane of~~ claim 10 wherein the plastic film layer has a thickness of about 20 mils.

Claim 12. (currently amended) The combination defined in ~~membrane of~~ claim 1 wherein the plastic film layer comprises polyethylene.

Claim 13. (currently amended) The combination defined in ~~membrane of~~ claim 1 wherein the plastic film layer comprises polypropylene.

Claim 14. (currently amended) The combination defined in ~~membrane of~~ claim 12 wherein the polyethylene is high density polyethylene.

Claim 15. (currently amended) The combination defined in ~~membrane of~~ claim 1 wherein the geotextile is nonwoven.

Claim 16. (currently amended) The combination defined in ~~membrane of~~ claim 1 wherein the geotextile is made of fibers comprising olefinic polymers.

Claim 17. (currently amended) The combination defined in ~~membrane of~~ claim 16 wherein the geotextile is made of fibers comprising poly-alpha olefins and polyesters.

Claim 18. (currently amended) The combination defined in ~~membrane of~~ claim 17 wherein the geotextile is made of fibers comprising polypropylene.

Claim 19. (currently amended) The combination defined in ~~membrane of~~ claim 18 wherein the geotextile is made of nonwoven fibers comprising polypropylene.

Claim 20. (currently amended) The combination defined in ~~membrane of~~ claim 1 in combination with a drainage mat attached to the high density polyethylene layer.

Claim 21. (currently amended) The combination defined in ~~membrane of~~ claim 20 wherein the drainage mat is bonded to the high density polyethylene layer.

Claim 22. (currently amended) The combination defined in ~~membrane~~ of claim 21 wherein the drainage mat and high density polyethylene layer are bonded with an adhesive.

Claim 23. (currently amended) The combination defined in ~~membrane~~ of claim 1, ~~having~~ wherein said membrane has an overall thickness ranging from about 30 to about 150 mils.

Claim 24. (currently amended) The combination defined in ~~membrane~~ of claim 23, ~~having~~ wherein said membrane has an overall thickness ranging from about 65 to about 95 mils.

Claims 25-43 (cancelled).
